

Modern Meets Comfort

Every detail of our brand-new hospital is designed with one thing in mind: *You*.

From the words of inspiration on the walls and the beautiful views in every patient room to the most innovative treatments available, this is a rehabilitation hospital unlike any other:

76 private rooms, each with natural light, custom artwork and spacious bathroom

Nutritious and delicious food, including from our picturesque Bistro

Comprehensive on-site facilities and services, including a fully functional apartment to practice activities of daily living (e.g., laundry, cooking, getting in and out of bed), meditation chapel, imaging services, large therapy gyms with views of the surrounding countryside, and an outdoor therapy and activities garden with wheelchair-accessible trail

Variety of lounges and indoor/outdoor patio spaces on each floor to rest, relax and host visitors

New hospital. New possibilities.

A place of transformation — ours and yours.

Good Shepherd
Rehabilitation 

Enter Good Shepherd Rehabilitation Hospital, and you'll immediately know you've come to someplace special.

This is the nexus of talent and technology, where you'll find a team of experts right beside you as you navigate your journey through stroke, brain injury, spinal cord injury and other complex medical rehabilitation. Our promise is that we'll be there with you — with the best technology, the best training and the very best experts to help you chart a personalized course of treatment.

Convenient Location

- + Nestled in eastern Pennsylvania's Lehigh Valley, the hospital is easily accessible via major highways, including Interstate 78 and Route 309 and is within 90 minutes of both Philadelphia and New York City.
- + Multiple hotels are nearby (talk to our admissions team about options).
- + Additionally, the hospital stands across the street from The Promenade Shops at Saucon Valley, an outdoor lifestyle center featuring dining, shopping, entertainment and more.
- + Ample free parking near the front entrance.

Experts in Rehabilitation

- + During your journey, experience the expertise of our interdisciplinary team — led by physicians who specialize in your recovery.
- + At Good Shepherd, The Fleming Center for Robotics in Rehabilitation identifies and tests robotic and wearable technology to further provide leading-edge care and contribute to the future of rehabilitation.
- + Additionally, our hospital features Empower+, a free demonstration and education space to learn a variety of leading-edge and innovative technologies and services.
